

### Capacity Assessment Exercise

The table below lists tasks and functions that need to be performed if human rights are to be respected, protected and realized at the country level.

From your own experience and contacts gained through your programme/project work identify:

*Who* (which institution) in your host country (within government or outside) is currently performing each of the tasks in this table titled National System for Promoting and Protecting Human Rights?

*How well* are they performing the tasks and with what capacity-building needs?

*Who* might be suitable for (and amenable to) performing any of the specific tasks in the future?
